## **DETAILED ACTION**

### ***Information Disclosure Statement***

The information referred to in the information disclosure statement filed June 2, 2006 has been considered with the exception of JP 02071347. The Examiner has been unable to locate a copy of this prior art reference. It is requested that Applicant provide a copy of the reference for proper consideration.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In line 1 of claim 1, "the seat back inclination" lacks proper antecedent basis. In line 4 of claim 1, "the zero value" lacks proper antecedent basis. In line 6 of claim 1, "the individual weight" lacks proper antecedent basis. In lines 7, 9, and 18 of claim 1, it is unclear if "ascertained length change", "the transmitted distance changes", and "the distance change" are intended to be the same feature. Lines 18 to 19 of claim 1 are grammatically vague. Note the recitation "in dependence on the distance change the surface of the volume body (D)". In line 19 of claim 1, "the energy storage means" lacks proper antecedent basis. Lines 3 to 4 of claim 2 appear to lack proper punctuation.

Art Unit: 3636

Note the recitation "in dependence on the distance change elastomer material of differing density is disposed". Claim 8 appears to contradict claim 3, from which it depends. The remaining claims are indefinite since each depends from an indefinite claim.

### ***Allowable Subject Matter***

Claims 2-11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Corning (2587822) shows a resiliently mounted chair back. Kimura (6520023) shows a load detection means for a seat bottom. Vogtherr (6116687) shows an elastomeric block for a seat back.
